

AI FOR SOCIAL GOOD

Our Family AI Safety Rules

Two teams of rules: things you ALWAYS do, and things you NEVER do. Talk them through, then hang this where your family uses devices.

ALWAYS

Do these every single time

Ask a grown-up first

Use AI with an adult you trust nearby.

Double-check the answers

AI can make mistakes, so check with a human.

Use kind words

Practice kindness, even when you talk to AI.

Tell a grown-up

If anything feels weird or scary, speak up.

NEVER

Not even one time

Share your secrets

No name, school, address, or photos.

Believe everything

AI sounds sure even when it's wrong.

Keep a worry to yourself

Scary or strange? It's never a secret.

Pick screens over people

Real friends and real hugs come first.

The golden rule: when in doubt, ask a grown-up!
